

## **PACE 2011**

Coimbatore 2<sup>nd</sup> Oct 2011, Vaso Meditech Pvt Ltd, the pioneers in distribution of non invasive cardiac diagnostic and treatment equipments participated in PACE 2011 (Programme on Advances in Critical Care and Emergency). The conference cum exhibition was held from 30<sup>th</sup> Sep to 2<sup>nd</sup> Oct 2011.

Vaso Meditech promoted their state of art product SphygmoCor®. A device to measure Central Blood Pressure, that too non-invasively. But the measurement is equal to the one measure invasively by inserting a catheter. Vaso Meditech is the sole distributor for SphygmoCor® in India.

Dr. Ramasamy, International Medical Director, IETA, delivered a presentation on **EECP - Acute Hemodynamic Benefit**. He mentioned the similarity between EECP and Intra Aortic Balloon pump(IABP). EECP therapy acute benefit is similar to IABP. The treatment is give for patient with Chronic stable angina and heart failure.

Padma Shri Dr. G. Bakthavathsalam, Chairman, KG Hospital himself invited and introduced Dr. Ramasamy to the audience. In his precise and brief introduction he mentioned that this EECP therapy is making wonders. Patients who complete this therapy are feeling far better than before. They are able to perform activities that they were unable to prior to the treatment.

**Dr. G. Bakthavathsalam with Dr. Ramasamy and Dr. Farook in Vaso-Meditech Stall**

Padma Shri Dr. G. Bakthavathsalam, Chairman, KG Hospital visited Vaso Meditech stall and was taken back on hearing the benefits of SphygmoCor®. He explained how he wants utilize it at KG Hospital.

**Dr. Ramasamy receiving the faculty participation certificate from Dr. Nithiyani**
